

Assignment 2 Results

Note: I'm not sure if there was an error or not but I got 100% accuracy over all my k-fold runs. Hence, my classification accuracy average was 100% because I got 100% on all ten of the trials.

The following is my classification attempt for the unlabelled test data. The given array shows how my program classified the algorithm in order...hence index 0 = '1.fasta'

```
['DELTA', 'BETA', 'DELTA', 'DELTA', 'DELTA', 'GAMMA', 'GAMMA',  
 'GAMMA', 'GAMMA', 'BETA']
```
